# TRANSFORMING OUR WORLD: NGO RALLY FOR SAFER ROADS

The 2nd Global High Level Conference on Road Safety provides a vital opportunity to secure new political commitment and momentum for the UN Decade of Action for Road Safety and the road safety targets included in the new Sustainable Development Goals. NGOs will be key to delivering these ambitious objectives, as they make road safety an issue that is personal, highlighting the real human impact, and holding policymakers to account. On the eve of the Brasilia Conference the Global Alliance of NGOs for Road Safety will organise a Rally to discuss global campaigns, exchange views with Ministers, hear updates from members and make partnership announcements. Join us.

Venue: **Royal Tulip Hotel, Brasilia**  
Date: **10am - 1:30pm, Tuesday 17th November 2015**
