

NGOs from around the world at the Seventh Global Meeting

HELP BUILD A SAFER, FAIRER, MORE SUSTAINABLE WORLD

“

“The awareness that the Global Meeting raised helped us gain traction at the highest level to generate a positive effect on road safety. Today, our death toll on the roads is 11% lower than last year, despite ongoing vehicle growth.”

Saul Castelar

Vice-Minister for Transport, El Salvador

The Global Alliance of NGOs for Road Safety is seeking a committed host for our next Global Meeting in 2027.

ABOUT THE GLOBAL MEETING

The Global Meeting is the primary NGO-led conference for road safety, safe mobility, and road victims' rights. Our 2027 meeting will gather NGOs, government agencies, global experts and academics, and corporate partners to work toward a world where every person has access to safe and sustainable mobility. Happening in the crossover period between the UN Decade of Sustainable Transport 2026–2035 and the Decade of Action for Road Safety 2021–2030, the Global Meeting presents a strategic opportunity to strengthen the road safety and safe mobility agenda, leveraging momentum beyond the 2030 global targets.

Jean Todt, UN Secretary-General's Special Envoy for Road Safety, and Michelle Yeoh, road safety ambassador and actor, with NGOs at the Sixth Global Meeting

“

"Morocco was delighted to host the Global Meeting in 2015 and the NGO Symposium in 2025. The community of international NGOs bring an energy that complements our ambition to lead a regional transformation on Africa's roads."

Benacer Boulaajoul

Director General, National Road Safety Agency, Morocco

WILL YOU BE OUR NEXT GLOBAL MEETING HOST?

Demonstrate commitment and leadership toward a safer and more sustainable society

Enhance your international reputation by partnering to reduce road crashes and save lives

Convene local agencies alongside global road safety and sustainability specialists

Champion civil society's critical role in shaping safer communities

Bring everyone to the table and, build long-lasting strategic partnerships across sectors

WHY DOES THE GLOBAL MEETING MATTER?

Road crashes are preventable: yet 1.19 million people are killed each year globally as a result of road crashes and many more millions are injured.

The consequences stunt progress toward the Sustainable Development Goals: causing sharp economic impact, at both national GDP and personal levels and exacerbating inequalities.

NGOs are at the forefront of efforts to save lives on the roads: working with communities and with their governments, leading road safety movements, and advocating for road safety actions.

WHO ARE WE?

The Alliance is the **leading global civil society advocacy voice for road safety**. It coordinates a **respected, united, and credible global network of NGOs focused on road safety, road victims, and safe mobility**. We have established a **track record and reputation as a mobilizer and convener** of grassroots NGOs, a **partner to UN and other international agencies**, and a **leading advocate for the meaningful involvement of NGOs in decision making**.

When you work with us, you work with more than **400 NGOs in 100-plus countries** translating **global commitments into local action**.
